Summary of Qualifications

- Immense experience across variety of server operating systems and technologies
- Continuous adaptive technical skill set
- Creative problem solver
- Why repeat tasks when we can automate

Technical Skills

Platforms

- Windows
- Unix/Linux
- Mac OS X

Languages

- Powershell
- Python
- Bash
- HTML
- CSS
- YAML
- RST

Databases

• MS SQL server

Software

- Red Hat Ansible
- Red Hat Ansible Tower
- Splunk
- Citrix VMware
- Citrix vROPS
- SailPoint IdentityIQ
- CyberArk
- Microsoft Active Directory
- Microsoft O365

- Microsoft Outlook
- Microsoft SCOM
- TOMCAT

Concepts

- GitHub, Version Control
- OOD, Object Oriented Design
- RBAC, Role Based Access Control
- IAM, Identity Access Management
- PAM, Privileged Access Management
- Automation

Professional Experience

Sutter Health IS, Sacramento, CA

[https://www.sutterhealth.org/]

- System Engineer 2, 07/28/2019-04/2/2021
 - Engineering, implementation, operation, maintenance, and support of a wide range of server platforms including:
 - Microsoft SCOM For Monitoring Microsoft systems
 - Splunk Log ingestion & Searching
 - Red Hat Ansible Automation
 - Infoblox IP Control
 - VMware vROPs vRealize Operations
 - Provided daily, weekly, and monthly systems capacity and performance review metrics for leadership
 - Deployed and retired Windows or RHEL virtual machines over VMware vSphere
 - Created timely event specific automation triggers in Splunk or SCOM for system monitoring and ticket generation
 - Accomplishments:
 - Managed Citrix vROPS (vRealize Operations Manager) Systemwide upgrade to 8.1.1 (10/2020)
 - Managed documentation and user access control to Red Hat Ansible Tower (2/2021)

• Information Security Analyst 3, 04/08/2018-07/28/2019

- Managed Identity Access Management through SailPoint IdentityIQ
- Managed Privileged Access Management and password rotation through CyberArk software
- Provided data security support and guidance to Sutter Health regions and affiliates

- Represented the Data Security Office on project teams and other IS initiatives and works with other IS operations support departments to identify and recommend solutions on securityrelated issues
- Provided hands-on security administration of a broad range of security duties
- Provided oversight of design, engineering, analysis, research, testing and monitoring
- Provided regular reporting of security related issues, mostly auditing users with Privileged Access

• Accomplishments:

- Implemented a Server Security Design Standard to ensure server builds met Privileged Access standards
- Provided security insight and created processes for employee onboarding and off boarding
- Lead team and built processes for Server access cleanup project to remove access from servers where privileged access was granted in error

Account Administrator 2, 10/13/2014-04/08/2018

- Managed Identity Access Management through SailPoint IdentityIQ
- Managed Privileged Access Management and password rotation through CyberArk software
- Assisted in technical analysis, design, support, and implementation of the day to day account administration requests regarding various types of access and application usage
- Provisioned access for Active Directory, AIX, AS400, UNIX, Linux, Remote Access and related systems
- Assisted in the implementation and support of technical solutions
- Worked with regional and project team members to define business and user requirements
- Removed access from terminated employees
- Upheld security policies regarding access related to job roles of employees

- Upheld security policies regarding Active Directory access
- Provisioned and maintained RightFax systems, a service for converting faxes to digital formats
- RightFax server maintenance and support
- Generated Reports regarding Active Directory access, network shares
- Created and maintained documentation for department processes
- Developed work process for new team innovations
- Accomplishments:
 - Was a key role in updating employee onboarding and off boarding processes (2/2017)
 - Redefined and tuned onboarding process for region specific employees
 - Maintained and updated documentation for team processes and applications
 - Designed and updated RightFax processes for system-wide implementation

Service Desk Representative, 10/21/2013-10/11/2014

- Provided technical support to over 60,000 employees including Doctors, Sutter Health employees, and external vendors through voice and written communications
- Supported Medical systems built on AS/400 platforms
- Handled ticket routing through Remedy software
- Rebuild and correct issues with Outlook profiles including group mailboxes and archive files
- Provided hardware support to HP and Ricoh printers and Fujitsu scanners
- Exceptional customer service skills working in a face paced environment

ECMC (formerly EdFund Guarantee), Rancho Cordova, CA [https://www.ecmc.org/]

• Help Desk Support, 06/2005-01/2013

- Provided technical support to employees, lenders, schools and students through voice and written communications
- Added, removed and maintained users on Active Directory and Linux
- Basic updates to Microsoft Exchange email accounts
- Addressed technical issues from disgruntled users
- Reset access passwords for network systems, upholding security policies
- Troubleshot technical issues determining causes of hardware and software issues
- Configured software remotely
- Created procedures detailing how to resolve issues with clear steps
- Created macros to handle tedious tasks

Personal Projects and Client Work

Personal Home Page [https://andrewway.net/]

Personal blog will detail ongoing events and projects

Norcal Noise Fest

[https://www.youtube.com/norcalnoisefest]

- Primary Sound Engineer for In-Person events
 - Sound board
 - Stage management
 - Sound design
 - Speaker configuration
 - Professional experience working with multiple musicians and performers to deliver amazing audio and performances for the audience
- Technical Wizard For Virtual Events
 - Event streaming over YouTube
 - Video editing
 - Automation scripting for video organizing
 - Video curation
 - Playlist generating
 - Graphic design
 - Capturing video and audio from multiple artists and performers from over the world for live stream during events
 - Experience with multiple streaming software, OBS
 - Experience with VoiP solutions, ZOOM, Discord

Musiclandria [https://www.musiclandria.com/]

- Volunteer for Virtual Events
 - Event streaming over YouTube and Facebook

- Experience with multiple streaming software, OBS and Wirecast
- Sound recording
- Sound design

Berkeley Finnish Hall

[https://www.youtube.com/channel/UCdl8zZP472lo4tKM4P6d meQ]

- Technical Lead For Virtual Events
 - Event streaming over YouTube
 - Experience with multiple streaming software, OBS
 - Sound recording
 - Sound design
 - Sound engineer

<u>City Lights Theater - Cellista's Finding San Jose</u> (3/24/2021) [https://www.youtube.com/watch? v=Vl1Sgstf8dA]

- Technical Lead For Virtual Events
 - Event streaming over Facebook, archived to YouTube
 - Experience with multiple streaming software, OBS
 - Directed interviews remotely and captured video for stream
 - Graphic design

Education & Certification

- Automation with Ansible and Ansible Tower (DO410)
 - Red Hat Training and Certification 2019
- Splunk 7.x Fundamentals Part 1 (eLearning)
 - Splunk eLearning 2019
- IdentityIQ Implementation: Essentials v7.2
 - SailPoint Technologies 2019
- Microsoft Certified Technology Specialist (MCTS)
 - 70-680 Windows 7 Configuration
 - Tech Skills of California 2011
- ITIL V3 Foundation Course
 - ITIL Training Zone 2011
